

Changes in the Atropos Skeptics Society

Lenka El léñas Šebestová, Vice Chair and Council Member of our society, has decided of her own accord to conclude her involvement with the Atropos Skeptical Society as of the New Year. After careful consideration, she has chosen to dedicate her time to other activities that currently bring her more joy and fulfillment.

We would like to thank Lenka for her contributions and the energy she has invested in Atropos. We wish her much success and satisfaction in all her future endeavors.

The Atropos Skeptical Society will continue its mission.

In the coming period, we will focus on reorganization and adaptation to the new situation, allowing us to further promote critical thinking and skepticism in a new format.

Thank you for your support.
